TERMS OF REFERENCE

Siphoning and Cleaning of Septic Tanks in Ports of Tablas and Romblon of PPA PMO Batangas

1. RATIONALE

Water is one of the essential needs of human being that must be protected from all forms of pollution. It primarily supports all living organisms on earth; hence, the infamous line "Water is Life".

It is estimated that 80% of the world's wastewater is dumped, largely untreated, back into the environment polluting rivers, lakes, and oceans. In the Philippines, government monitoring shows that 58% of the groundwater sampled is contaminated with coliform and needs treatment.

To address water pollution problem in the country, laws were enacted that prohibits the discharge of untreated wastewater in water bodies. These include Presidential Decree 984 (Pollution Control Law) and Republic Act 9275 or the Philippine Clean Water Act.

In PMO Batangas, all ports under its jurisdiction are provided with septic tank as the main receiving facility for the daily generated wastewater. However, septic tank is not a complete treatment facility as it only separates solid from liquid wastes whereas a full treatment facility has mechanical components to do the treatment processes.

Meantime that a sewage treatment facility has not been provided yet in the port, services of DOH-accredited siphoning company for the transport, treatment and disposal of septage need to be engaged. Specifically, Section 8, Rule 8.1 of PCWA stated that All projects/activities involving the collection, transport, treatment and disposal of sewage shall be in accordance with the guidelines on sanitation set by DOH. In case sewage, septage, or sludge is collected, transported, treated and disposed by a third party, the final disposal of the treated sewage, septage or sludge shall comply with the relevant standards issued by DOH."

This Terms of Reference (TOR) shall serve as guide to the parties interested to participate in the procurement of services for Siphoning and Cleaning of Septic Tanks in Ports of Tablas and Romblon of PPA PMO Batangas.

2. OBJECTIVES

It is the objective of this procurement to assist and promote the thrust of the Department of Environment and Natural Resources (DENR) in the advocacy campaign of ensuing clean water for all Filipinos, including future generations. Specifically, the objectives of this undertaking are as follows:

- 2.1 To increase the primary treatment efficiency of installed septic tanks in the ports through siphoning / desludging operations by a competent DOH-accredited service provider which procurement is in accordance with Republic Act No. 9184 and its 2016 Revised Implementing Rules and Regulations.;
- 2.2 To comply the proper disposal requirements of sewage as stated under the Philippine Clean Water Act and its Implementing Rules and Regulations;
- 2.3 To submit Certificate of Desludging and Treatment by an accredited service provider to DENR-EMB in compliance to condition stated in the Discharge Permit.

3. SCOPE OF UNDERTAKING

- 3.1 **Areas Covered.** The areas covered by the siphoning/desludging services to be provided are the following:
